What to do

COMMUNICATION
It is very important to communicate with our children to better understand where they need support and their situations.

IN VolvEMENT
This is important to keep informed and reduce the stress you may feel about their next steps. Also motivates them to keep doing good.

Self-REFLECTION
How do you feel? Why do you feel this way? Is it valid? What is the best solution and situation for your children?

Motivation
It can be a very stressful time and they need that motivation to keep going and finish strong.
